(1) Based on approximately 5% print coverage. (2) Average standard page yield value declared in accordance with ISO/IEC 19752. Use and return empty only to Lexmark. (3) Actual Yield may vary based on factors such as number of pages per print job, device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. (4) Average standard page yield value declared in accordance with ISO/IEC 19752. (5) Photoconductor maximum yield estimate based on 3 average letter/A4-size pages per print job. Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. (6) Use and return empty only to Lexmark. Based on approximately 5% print coverage. (7) Based on approximately 5% print coverage at comparable industry setting (toner darkness setting 5). (8) Use and return empty only to Lexmark. Based on approximately 5% print coverage at comparable industry setting (toner darkness setting 5). (9) Photoconductor maximum yield estimate based on 6 average letter/A4-size pages per print job. Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity.

(1) Average continuous black or continuous composite CMY declared cartridge yield up to this number of standard pages in accordance with ISO/IEC 19798. Use and return empty only to Lexmark. (2) Use and return empty only to Lexmark. Based on approximately 5% print coverage. (3) Average continuous black or continuous composite CMY declared cartridge yield up to this number of standard pages in accordance with ISO/IEC 19798. (4) Based on approximately 5% print coverage. (5) Based on approximately 5% print coverage. Includes coating roll. Black (6) Based on approximately 5% print coverage. Actual yield may vary according to customer usage. (7) Photoconductor maximum yield estimate based on 3 average letter/A4-size pages per print job. Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. (8) Black (9) Black, CMY (10) The yield depends on printing mode (color or black only). (11) Based on approximately 5% print coverage. CMY (12) Based on approximately 5% print coverage. Black (13) Page yield depends on engine speed. (14) Imaging unit maximum yield estimate based on 3 average letter/A4-size pages per print job. Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. (15) Photoconductor maximum yield estimate based on 5 average letter/A4-size pages per print job. Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity.
